

FACULTY OF MEDICINE

EDUCATION SHAPES THE FUTURE

About Us

European University is an authorized, private higher education institution that implements accredited bachelor's and master's degree programs and offers locally and internationally recognized qualifications.

The university is a fast progressing and development-oriented higher education institution with two brand-new academic buildings, a modern dormitory, and Jo Ann University Hospital. The well-known hospital was founded in 1996 by Jo Ann in Tbilisi, Georgia and is the largest diagnostic and treatment facility in Georgia.

The dormitory serves up to 300 university students from about 70 countries, including Europe, Asia and the United States.

Currently, there are two English language education programs that are very popular among international students:

- A six-year Medical Doctor program.
- A five-year Dentistry program.

European University is authorized and programmatically accredited by Georgia's National Center for Education Quality Enhancement. The Centre is a member of the European Association for Quality Assurance in Higher Education (ENQA), is registered at the European Quality Assurance Register for Higher Education (EQAR) and is officially recognized by the World Federation for Medical Education (WFME). Accordingly, graduates of the European University are qualified to continue their studies or be employed in the European Union, Canada, Australia, the United States, and Asian countries.

European University Offers Medical Doctor (MD) Program and Dentistry Program

Medical Doctor (MD) Program

Endodontist,
Pedodontist;
Vice president of
Georgian Dental
Association, GSA

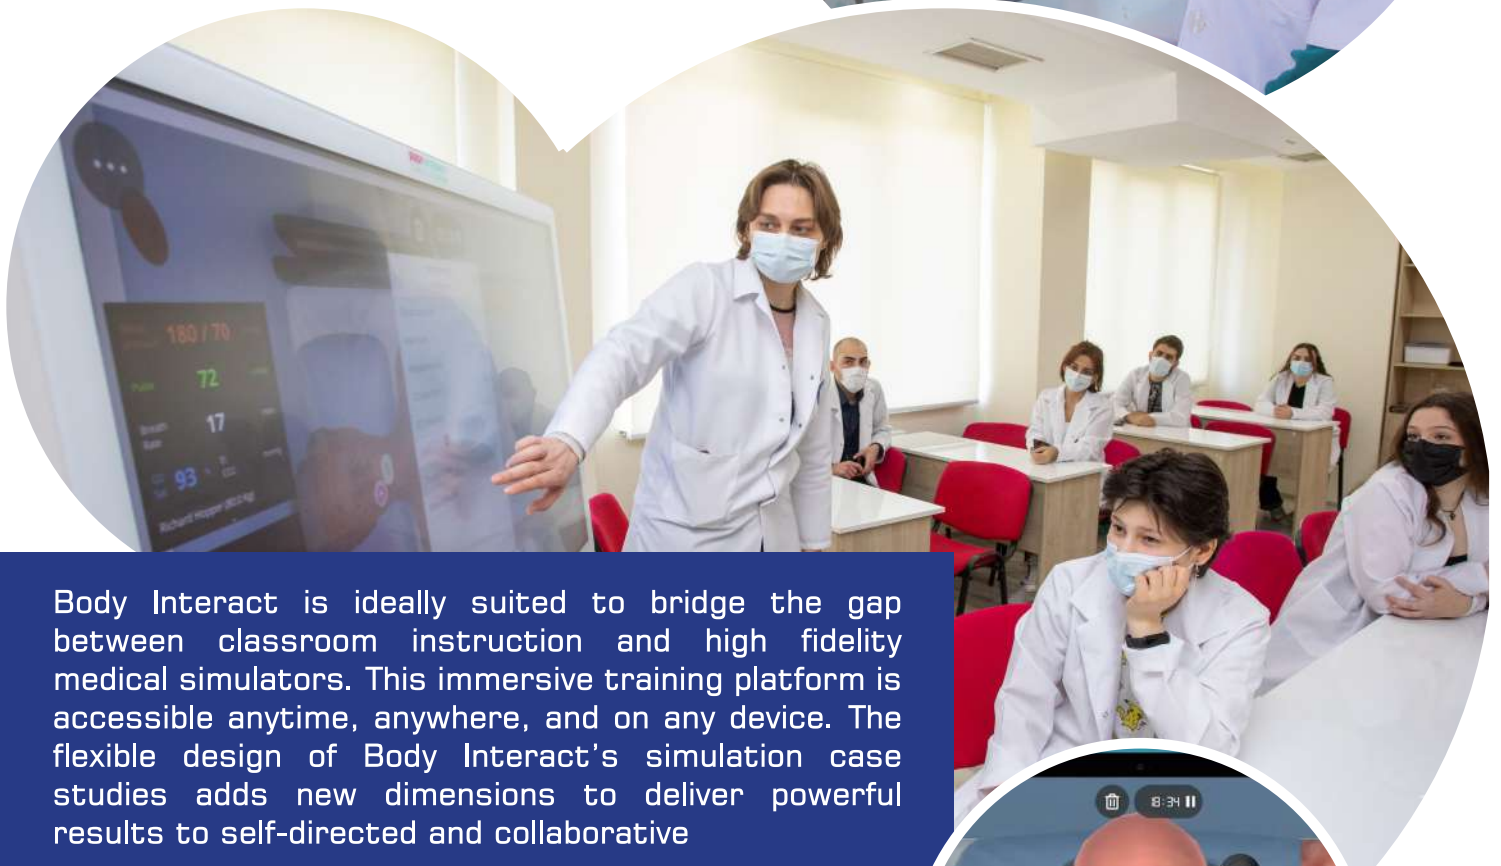

INNOVATIVE Teaching Method

We are not limited to simply teaching you medicine. We offer you an unforgettable journey through the micro and macro worlds of the human body, using modern medical literature, multimedia means and medical simulators. We welcome you to major clinics where you'll be able to fully experience a realistic medical environment and help solve real tasks and use techniques which will later be crucial for conducting independent procedures in your future specialty.

Body Interact in European University

Body Interact Virtual Patient Simulator

Body Interact is ideally suited to bridge the gap between classroom instruction and high fidelity medical simulators. This immersive training platform is accessible anytime, anywhere, and on any device. The flexible design of Body Interact's simulation case studies adds new dimensions to deliver powerful results to self-directed and collaborative

The final results of the 2nd International Diagnostic Championship

213 teams from 104 medical schools of 49 countries entered the competition of the World Final of the Championship. Format of the competition was to discuss the cases provided for them by inSimu Patient app and diagnose all the patients in a very short time.

The final score was calculated based on several factors: correctness of the diagnosis, diagnostic pathway, time and cost-efficiency. Ordering the most relevant tests was key to get a high Score.

Team of European University made by 3 students of EU Medical Faculty: Venkata Naga Sarabu Meghana, Shweta Tilante, Mohammed Kumar Naick successfully participated in the final competition and were awarded with 3rd place. EU team members received Amazon Gift cards and inSimu Premium subscription from the championship organizers.

Successful Graduates

EUROPEAN UNIVERSITY

EDUCATION SHAPES THE FUTURE

GHANATE RAHUL KUMAR

IS A GRADUATE OF EUROPEAN UNIVERSITY
MEDICAL DOCTOR PROGRAM.

ON MAY 5, 2021 HE WAS AWARDED THE ACADEMIC DEGREE OF MEDICAL DOCTOR.

ON JUNE 30, 2021 HE SUCCESSFULLY PASSED THE MCI EXAM AT FIRST ATTEMPT.

FROM JUNE , 2021, HE STARTED WORKING AS A DUTY MEDICAL OFFICER AT PACE HOSPITALS, INDIA.

ON DECEMBER 17TH, 2021 HE GOT THE MEDICAL LICENSE FROM HIS STATE MEDICAL COUNCIL WHICH IS VALID THROUGHOUT INDIA FOR FURTHER MEDICAL PRACTICES AND OTHER HIGHER STUDIES.

FROM FEBRUARY 2022, AFTER RECEIVING HIS MEDICAL REGISTRATION/LICENSE HE STARTED WORKING AS CONSULTANT DOCTOR/MEDICAL OFFICER AT CONTINENTAL HOSPITALS.

HE IS STILL PREPARING FOR HIS SUCCESSFUL CAREER AND AIMING HIGH FOR SPECIALIZATION. EUROPEAN UNIVERSITY WISHES HIM TO ACHIEVE HIS DREAMS AND BECOME A SUCCESSFUL DOCTOR.

IFMSA

International Federation of
Medical Students' Associations

Competition for Medical Doctor Students to participate in the IFMSA (International Federation of Medical Students Association) exchange project was held at the Faculty of Medicine of the European University.

Within the project, students will take one month (28 days) of clinical practice during 2021-22 years in one of the participating Countries (Italy, Moldova, Serbia, Hungary, Romania, Peru).

Six Medical Doctor Students were selected as a result of the competition: Alikya Chipurupalli – Italy, Sahishnuta Suryakant Deshmukh – Hungary, Reet Agarwal - Romania, Uppal Ravisha – Peru, Joji jincy Mariya – Serbia, Rishu – Moldova.

According to the project, the students sent from the European University will be hosted by six countries, and students from these countries will arrive in Georgia.

Within the project, European University undertakes to plan clinical practice for 6 students from host countries. The University will reimburse the clinical practice and the living expenses of the international students arriving under the project, as a result, European University students will be exempt from clinical practice fee and living expenses in the host countries.

Clinical clerkship at Otolaryngology (ENT) Department of the University of Debrecen and Neurology Department of the University of Szeged.

I, Yugdeep Singh Dudi, am really glad that I chose European University. I personally have never seen such a positive staff anywhere else. No matter the problem, university is always there to help and for the university students are of utmost importance, which I love the best.

- Ever since I stated studying here, I have been growing into a better person. University provides us with a lot of opportunities, for eg: seminars, projects, international conferences, volunteer work and exchange programs too. I myself have participated in two exchange programs plus an international conference and I cannot thank the university enough for that.

Accessible to students 24/7. We have a huge collection of books related to medical program.

- I am really blessed for such a supportive university and would urge my fellows to join us in this endeavor.

Volume 2
2020

The second issue of the scientific student journal "Biomedical and core clinical research practice" was published by the European University. The journal was founded in 2019 and not only the students of European University but students from other Georgian and Foreign Universities are eligible to publish articles in the journal.

That journal promotes the dissemination of materials on innovations, achievements and research in the field of medicine.

The fact that the journal is run by European University students is also important in promoting students engagement in research. The honorary editor-in-chief of the publication is Prof. Brun Joan-Frederic (France) and the editorial board is represented by the academic staff of the Medical Faculty of the European University. Georgian and international students who work in different scientific directions can cooperate with the journal. The journal is published in English

The University Dormitory

The dormitory includes 4700 square metres of space with a housing capacity of 300 students. Each furnished and well-equipped room has a bedroom for two students with free Wi-Fi, air conditioning, central heating and a private bathroom. Some common areas include a cafeteria and gym on the ground floor. Professional residence life staff ensures the maintenance and safety of the dorms.

Jo Ann University Hospital

The well-known hospital was founded in 1996 by Jo Ann in Tbilisi, Georgia and is the largest diagnostic and treatment facility in Georgia.
