

Tallinn University of Technology (Estonia)

The story of Tallinn University of Technology dates back to 17 September 1918, when the Estonian Technical Society, which united local technical intellectuals, started to organise special technical courses in Estonia, which was occupied by German forces at that time. Tallinn University of Technology (TalTech) is the only flagship in engineering and IT science and education in Estonia, providing higher education at all levels in engineering and technology, information technology, economics, science, and maritime. TalTech's mission is to be a promoter of science, technology, and innovation and a leading provider of engineering and economic education in Estonia.
